Temperature Control.....Manual Setting
Temperature Readout.....Digital Read out
Amount of Water.....Digital Read out
Pre selection.....Electronic incl. Memory
Intermediate stop.....Manual
Pre run.....Manual
Max. Metering per setting..... 999.9 L
Min. Metering per setting0.2 L
Metering unit /volume 0.1 L

Temperature range50-140°F
Hot water supplyMax. 194°F
Water supply, pressure.....Max. 100 psi
Water supply, pressureMin. 21 psi
Power connection.....110V
Power consumption.....Max 25 W
Metering accuracy ...+/- 0.03L from 0.2 – 999.9 L
Dimensions, W x H x D ...12 x 16 x 8 inches

- Digital reading of requested temperature and amount of water
- Automatic adjustment of after run
- Metering in litres or lbs. and in centigrade or degrees Fahrenheit.
- Multi language text function
- Low power consumption
- Labour saving
- Easy to program and operate
