

PICCOLO SEMI-AUTOMATIC BUN AND ROLL DIVIDER/ROUNDER

- Accurate dividing and rounding.
- The degree of rounding action is infinitely variable and can be adjusted while the machine is in motion, by the operator.
- The dough pieces after rounding show excellent closure at the bottom with no "tailing".
- Each piece after rounding is left in the center of the rounding space clear of the knives.
- Will handle a wide range of doughs with no problems.
- The fast but gentle rounding action allows for a high output rate.
- Moulding plates are made from a heavy duty PVC or a special non-corrosive alloy (optional) both of which are light and easy to handle.
- Cleaning is a simple and quick operation and with the easy accessibility of the moving parts lubrication is also a quick and clean operation.
- Takes up a minimum amount of floor space.
- Comes standard with a baked enamel finish.
- *UL listed.*
- All internal parts are painted with a rust inhibiting paint.
- The motor is thermally protected against overloading.

ALL DIMENSIONS ARE IN INCHES
AND ARE APPROXIMATE

Model	Divisions	Dough Bulk	Dough piece				
P3U	36	2 - 6 1/2 lbs.	7/8 - 2 7/8 OZS.				
P4	30	2 1/2 - 8 3/4 lbs.	1 3/8 - 4 3/4 OZS.				
PSU	36	2 1/4 - 7 7/8 lbs.	1 - 3 1/2 OZS.				
P6	12	2 1/4 - 7 7/8 lbs.	5 - 10 1/2 OZS.				
P7	26	2 3/4 - 8 1/2 lbs.	1 3/4 - 5 1/4 OZS.
