

# 5-MB

**Average Speed:**  
Typically Under 1 Minute Per Product Cycle

**Function:**  
This model is a tabletop single wire machine operated by human power with a lever arm to slice up to 40 lb blocks of cheese or butter into smaller portions. An entire 40 lb block can be cubed on this machine by cutting the block into columns in one direction and then cutting the other direction to cut cubes. This machine is a great addition to any bakery breaking down butter blocks for ingredients or any cheese operation starting with blocks or wheels of cheese and breaking them down into smaller portions.

- Benefits**
- Achieve a return on investment through labor savings and improved portion quality and consistency
  - Stainless steel assembly is heavy duty and easy to clean
  - Small and compact tabletop design is perfect for locations with limited space
  - Reliable and durable equipment backed by manufacturer's warranty
