# ACCUSLICE-100PC

## Average Speed:

Up To 2,700 Products Per Hour

## Function:

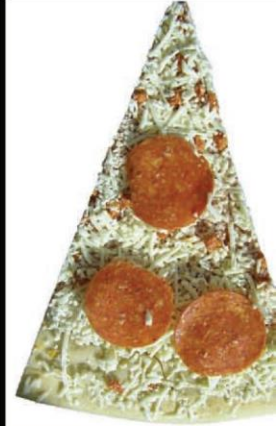

This high-production inline machine is designed to cut pizza, lasagna, or quesadilla at high speed. The model features dual product lane holders to cut two products every cycle. The machine can be customized to cut round, rectangle, or square products. Change over between products is quick and easy. This machine is great for any production facility cutting a large quantity of frozen pizza, lasagna, or quesadilla products.

## Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion products every time in a high volume production process
- Accessories and blade sets require minimal change over time to slice new products
- Can slice round or square products into wedges, squares, rectangles, or triangles when equipped with the proper blades
- Reliable and durable equipment backed by manufacturer's warranty

## Dual Lane Pizza Portioning

## Power:

Compressed Air 30 CFM @ 90 PSI  
Electric 208V-240V, 6A

## Product Size Ranges:

Round - 16 in (40.6 cm) Diameter  
Square - 16 in x 16 in Square  
Height - 3 in (7.6 cm) Tall

## Portion Size Ranges

Depends On Product

FoodTools machines are manufactured with heavy duty anodized aluminum, stainless steel, and ultra-high molecular weight plastic. The equipment is designed for complete wash down requirements in production facilities.

Specifications are subject to change and are dependent on the product portioned or additional accessories to standard equipment.
