Industry Leaders in Portion Control

# CP-1H

**Average Speed:**

Up To 360 Products Per Hour

**Function:**

This model is designed to press and pack crumbs into the bottom of a half sheet pan quickly and with consistent pressure. The machine can hold 2 quarter sheet pans or 1 half sheet pan per cycle. The machine is designed to reduce labor cost and improve product quality and is best for bakeries pressing crumbs into more than 100 pans per run.

**Benefits**

- Achieve a return on investment through labor savings and improved press quality and consistency
- Versatile machine can press round and sheet products with specific accessories
- Perfectly press products every time
- Reduce employee fatigue and repetitive movement injury risk by mechanically pressing crumbs and other products
- Small and compact tabletop design is perfect for locations with limited space
- Reliable and durable equipment backed by manufacturer's warranty

## Half Sheet Product Press
