

TC-2

High Speed Tortilla & Pita Slicing

FOODTOOLS
Industry Leaders in Portion Control

TC-2

Average Speed:

Up To 3,600 lbs Per Hour

Function:

This model is a high production machine built to quickly cut tortilla or pita products into wedges. Stacks up to 12" can be placed in the machine and in one pass will be cut into a set number of portions. The sliced product then drops onto a conveyor to be moved into the next step in the production process. This is a great machine for any tortilla or pita production line cutting a high volume of round products into wedges.

Benefits

- Achieve a return on investment through labor savings and improved portion quality and consistency
- Perfectly portion flat bread products every time no matter who is cutting
- Remove the need for employees to use sharp knives to slice chips
- High production design with rotating table allows operator to reload as a stack of product is being cut, reducing cycle time
- Reliable and durable equipment backed by manufacturer's warranty

High Speed Tortilla & Pita Slicing

**Power:**

Compressed Air 18 CFM @ 90 PSI

Product Size Ranges:
