PLAIT Machines

With this Oddy equipment a wide range of plaits can be produced without the need for skilled labour.

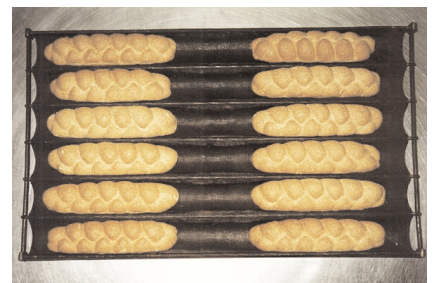

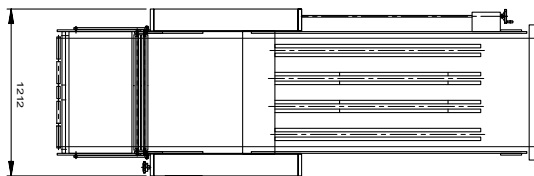

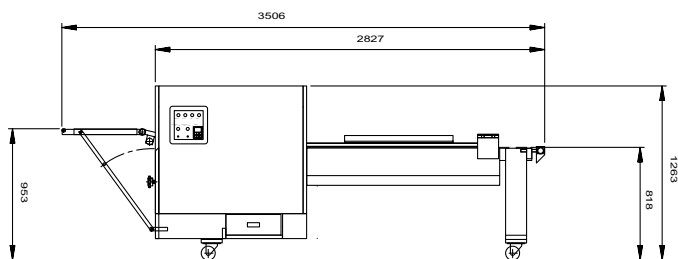

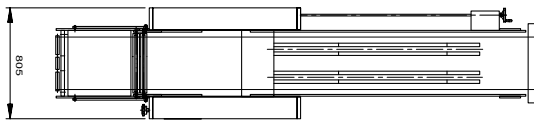

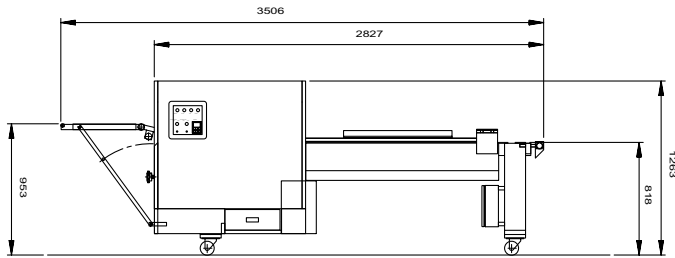

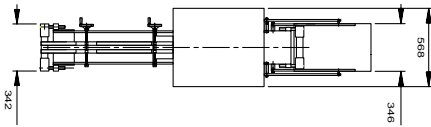

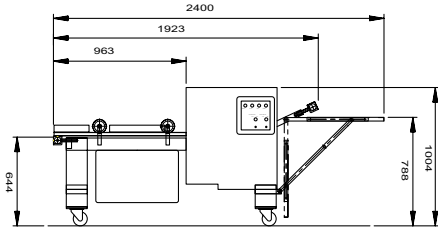

- Available in single, two and four row configurations. The single row machine can be hand fed or used with a roll plant. Two and four row versions are fed by the panner of a roll plant
- Consistent results
- Wide range of shapes and sizes (25g-400g)
- Two plait pattern forming wheels are available (large & small)
- Plain roller available
- Authentic hand made appearance
- No skill required
- Ideal for sandwiches
- Continuous production
- Adjustable, centralising guides
- Simple to operate and maintain
- Compact and mobile
- Plait machines will accept:
 - round dough balls
 - pinned products
 - finger rolls
 - subs
 - full baguettes
